## 1

European ITS Service Deployment Reference Handbook	23
1.1 Significance and background of the Handbook	25
1.2 References to European background activities	27
1.2.1 Preliminary remark	27
1.2.2 The European Delegated Regulations on Traffic and Travel Information Provision	27
1.2.3 Key Performance Indicators	32
1.2.4 Importance of information provision to National Access Points	32
1.2.5 DATEX II	33
1.2.6 European Member States C-ROADS Platform	34
1.2.7 Further relevant Programme Support Actions (PSA)	35
1.3 Scope and pillars of harmonisation and interoperability in this handbook	39
1.4 Guidance for reading this handbook	40

## 2

The conceptual setup	41
2.1 The European ITS Core services structure model	43
2.2 The common ITS service description structure	44
2.3 The ITS Service Radar concept	45
2.4 The Harmonization requirements and advice concept	46
2.5 How ITS Core services share information	49
2.5.1 Interface implementation model	49
2.5.2 Required interface standards and specifications	51
2.6 The Level of Service and Operating Environment concept	52
2.7 The Level of Quality concept	56

# 3

TTIS - Traffic and Travel Information services	59
3.1 TTIS-Introduction	61
3.1.1 Overview	61
3.1.2 Purpose and scope of Traffic and Travel Information services	61
3.1.3 Vision, Missions and Benefit of TTI Core services	64
3.1.4 Key actors in the Traffic and Travel Information value chain	73
3.1.5 Conditions for Service Provision – Business Model	77
3.2 TTIS-01 Forecast and Real-time Event Information	83
3.2.1 ITS service at a glance	83
3.2.2 Harmonization requirements and advice	84
3.3 TTIS-02 Traffic Condition and Travel Time Information	91
3.3.1 ITS service at a glance	91
3.3.2 Harmonization requirements and advice	92
3.4 TTIS-03 Speed Limit Information	98
3.4.1 ITS service at a glance	98
3.4.2 Harmonization requirements and advice	99
3.5 TTIS-04 Road Weather Information	105
3.5.1 ITS service at a glance	105
3.5.2 Harmonization requirements and advice	106
3.6 TTIS-05 Multimodal Travel Information Service	113
3.6.1 ITS service at a glance	113
3.6.2 Harmonization requirements and advice	116

# 4

TMS - Traffic Management services	127
4.1 TMS-Introduction	129
4.1.1 Overview	129
4.1.2 Purpose and aim of Traffic Management services	130
4.1.3 Vision, Missions and Benefit of Traffic Management Core services	131
4.1.4 The Traffic Management Value Chain	143
4.2 TMS-01 Dynamic Lane Management	152
4.2.1 ITS Service at a glance	152
4.2.2 ITS service profile	153
4.2.3 Harmonization requirements and advice	155
4.3 TMS-02 Variable Speed Limits	166
4.3.1 ITS service at a glance	166
4.3.2 ITS service profile	167
4.3.3 Harmonization Requirements and advice	169

4.4 TMS-03 Ramp Metering	179
4.4.1 ITS service at a glance	179
4.4.2 ITS service profile	180
4.4.3 Harmonization requirements and advice	182
4.5 TMS-04 Hard Shoulder Running	190
4.5.1 ITS service at a glance	190
4.5.2 ITS service profile	191
4.5.3 Harmonization requirements and advice	192
4.6 TMS-05 HGV Overtaking Ban	203
4.6.1 ITS service at a glance	203
4.6.2 ITS service profile	204
4.6.3 Harmonization requirements and advice	206
4.7 TMS-06 Incident Warning and Management	218
4.7.1 ITS service at a glance	218
4.7.2 ITS service profile	219
4.7.3 Harmonization requirements and advice	221
4.8 TMS-07 Traffic Management for Corridors and Networks	230
4.8.1 ITS service at a glance	230
4.8.2 ITS service profile	231
4.8.3 Harmonization requirements and advice	234

## 5

F&LS - Freight & Logistic services	253
5.1 F&LS-Introduction	254
5.2 F&LS-01 Intelligent and Secure Truck parking	256
5.2.1 ITS service at a glance	256
5.2.2 ITS service profile	257
5.2.3 Harmonization Requirements and advice	260
5.3 F&LS-02 Abnormal Goods Transport Regulations	268
5.3.1 ITS service at a glance	268
5.3.2 ITS service profile	269
5.3.3 Harmonization requirements and advice	271

## 6

Annex A: Deployment References (see separate document)	277
---	-----

## 7

Annex B: Compliance checklists	279
7.1 TTIS - Traffic & Travel Information Services	280
7.1.1 TTIS-01 Forecast and Real-time Event Information	280
7.1.2 TTIS-02 Traffic Condition and Travel Time Information	285
7.1.3 TTIS-03 Speed Limit Information	290
7.1.4 TTIS-04 Road Weather Information	294
7.1.5 TTIS-05 Multimodal Travel Information Services	299
7.2 TMS - Traffic Management Services	304
7.2.1 TMS-01 Dynamic Lane Management	304
7.2.2 TMS-02 Variable Speed limits	310
7.2.3 TMS-03 Ramp Metering	315
7.2.4 TMS-04 Hard Shoulder Running	319
7.2.5 TMS-05 HGV Overtaking Ban	323
7.2.6 TMS-06 Incident Warning and Management	327
7.2.7 TMS-07 Traffic Management for Corridors and Networks	333
7.3 F&LS - Freight & Logistic Services	339
7.3.1 F&LS-01 Intelligent and Secure Truck parking	339
7.3.2 F&LS-02 Access top Abnormal Goods Transport Regulation	345

## 8

Annex C: Operating Environment Classification	349
8.1 Introduction	351
8.2 Understanding the classification criteria and attributes	351
8.2.1 Physical characteristics	351
8.2.2 Network typology or traffic management orientation	352
8.2.3 Traffic flow impact	353
8.2.4 Potential road safety concerns	354
8.2.5 Other attributes	354
8.3 Carrying out the classification in practice	355
8.3.1 Basic principles	355
8.3.2 Using the Excel support tool	355
8.4 Reporting the classification	359
List of Weblinks	361
Imprint	362
